

Dejan Jangelovski

Frontend Developer

Profile

Passionate for programming, a self-motivated individual willing to learn and create collaborative projects. Looking forward to a new opportunity in my professional career.

Employment History

Internship, Front-end developer at Sellsio Clinic Software, Skopje

August 2022 — Present

Working on a platform with developers and designers adding and making new interesting features in which users can use and easy navigate.

Been making that as a part of a team using: Vue Js, Type Script, Java Script, Tailwind CSS, HTML 5

Internship Front-end Developer at Falcon Gaming Company, Skopje

December 2021 — April 2022

Working with other developers and designers to create and develop responsive websites in which user can easily navigate.

Been making games as a part of a team using Angular, TypeScript, JavaScript, Html5, CSS3, Bootstrap.

Working, communicating as a part of a 6-person team.

Junior Front-end Developer at Freelancer, Skopje

July 2021 — December 2021

Education

Front-end MERN Developer, Semos Computer Education Center, Skopje

August 2021 — January 2022

JavaScript, React.js, Node.js, MongoDB, Html5, CSS3, Bootstrap.

Front-end Academy, Brainster, Skopje

July 2020 — February 2021

As part of the academy, I worked on building a web page for Brainster students.

The students can see all available courses and academies offered by Brainster, and apply to join some of them.

Technologies used: React Js, Bootstrap

Bachelor's, Faculty of Economics, Ss Cyril and Methodius University, Skopje

September 2013 — June 2018
